

## Certificate Award of Environmental Impact

This certificate is awarded to you for your participation in the Arizona Utility Energy Conservation Rebate Incentive Programs

30-Mar-17

### Estimated Saving is:

**18,900,000** kWh/year

Coal Saved Annually **18,900,000 lbs.**

It would take **52805** solar panels to offset this much coal per year

CO2 Emissions Reduction Annually **42524767 lbs.**

It would take **885874** mature trees to absorb this much CO2 per year

Water reduced Annually **13,200,000 gallons**

#### Other Pollutants Annual Reduction:

Particulates	<b>384231</b> lbs. Sulfur
Oxide, Sox	<b>279554</b> lbs. Nitrogen
Oxide, Nox	<b>139777</b> lbs. Methane, CH4
122 lbs. Mercury	<b>434551</b> Milligrams
